03-01-2025

Start time 8:30 AM

Dam Meeting,

Members Present, President Steve Slimm, Vice-President Donovan Saunders, Treasurer Donald Watson, Secretary David Blair, Dam Committee Bob Kauffman, Dam Committee Bob Sutts

Items for repair or adjustment. There are approximately 12 ACBs that need grinding between both sides of the dam. Concrete needs repair where ACBs were turned on the E. Collings Ave side. Rocks between the water and the ACBs need to be adjusted. Measurements for permanent fencing for both side of the dam were taken for a Bid Specification to be written and sent out.

Measurements for the fencing looking at the dam from the road: Fenimore Ave. side; 60 foot from the Edge of the rocks on the left side to in front of the start of the ACVs, in front of the ACVs to waters edge access area for boats 45 with 10 foot double gate access, 10 foot from the boat access area to the waters edge.

E. Collings Drive side Coming from the waters edge on the left side of the dam to just in front of the telephone pole 45 foot, from the telephone pole going across the front ACVs to inside the wood line, approximately 10 foot, 75 foot with a double gate access totaling 10 foot.

Meeting Completed at 9:40 AM

Respectfully Submitted,

Secretary David Blair
